

NetScore Rental Management

For NetSuite

Built for
ORACLE
NETSUITE 
Native SuiteApp

NetScore Rental Management provides a full featured solution for distribution companies who rent equipment as part of their product offering. NetScore Rental Management is built native to the NetSuite platform providing a seamless extension to the customer's ERP solution. The application leverages core NetSuite features for item set up, billing, returns and reporting. Rental agreement contracts can be tailored through the standard form tools.

Benefits

Full Featured Rental Solution Integrated with Your ERP

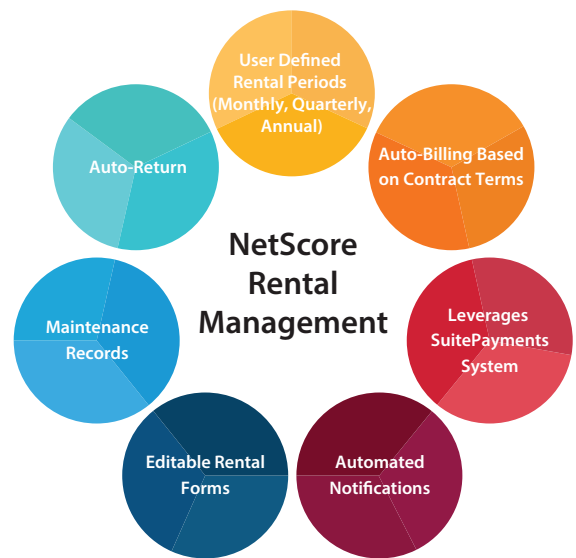

Utilizes NetSuite to manage items, customers, rental orders, billing, returns and flexible reporting in one place.

Manage Your Rental Assets

Track availability, maintenance actions, rental history and revenue generated.

Easy Reporting

Leverage NetSuite reporting tools, dashboards and saved searches, to keep up to date on your rental business.

Flexible Billing Options

User defined billing cycles, integrated credit card payments and automated billing based on contract terms makes billing quick and easy.

“Great Rental Software

Our company launched with NetScore in 2019 and have been using it for a little less than 6 months now. The system has great functionality for any company that provides rental services for their customers. The NetScore team is always available for help and training when needed to better familiarize yourself with the software. If you are in need of a rental software for your company look no further than NetScore!”

Features

Automated Billing & Customer Payments

Automates billing and customer payment process as per rental billing cycles.

Customizable Solution

Add user defined fields, custom work flow and reports using the power of NetSuite.

Alert System

Automatically send alerts to email rental contracts, remind customers of contract expiration and overdue accounts.

Full Integration with NetSuite Financials

Leverages NetSuite financials for billing, fixed assets and financial reporting.
