Benefits

Automatic Product Sync

Manage real-time product sync of item categories, variations, pricing, images and other attributes.

Bi-directional Connectivity

Establishes two-way connectivity between NetSuite and Magento store to ease the overall process.

Avoid Under & Overselling

Eliminates order errors by keeping inventory levels in-sync between NetSuite and Magento in real-time.

Improved Visibility of Shipping Details

Passes shipment tracking information between Magento and NetSuite so users can conveniently track shipments.

Reduce Order Processing Time

Eliminate manual work for orders and reconcile in real-time.

Easily Connect Multiple Stores

Manage multiple Magento stores in your central NetSuite instance.

Features

Dashboard

Displays and monitors the customer's business on the NetSuite dashboard with fast access to sales orders and product data to speed up day-to-day tasks.

Items & Inventory

Automatically synchronizes all product and inventory categories between NetSuite and Magento in real-time.

Orders

Automated creation of sales orders, payment invoices and customer records in your NetSuite account on a regular basis.

Returns and Credit Memos

Automatically imports & exports return orders and credit memos between NetSuite and Magento.

Shipments

Automatically updates the shipment status of orders between NetSuite and Magento.
