

NetScore Rental Management

For NetSuite

NetScore Rental Management provides a full featured solution for distribution companies who rent equipment as part of their product offering. NetScore Rental Management is built native to the NetSuite platform providing a seamless extension to the customer's ERP solution. The application leverages core NetSuite features for item set up, billing, returns and reporting. Rental agreement contracts can be tailored through the standard form tools. Advanced capabilities include integration with NetSuite Asset Management, contract extensions, item replacement, a workflow navigation capability, and ability to maintain service records on equipment.
