

ELITE WINES IMPROVED THEIR WAREHOUSE OPERATIONS

Elite Wines Imports, Inc. was founded in 2002. The company's line of business includes the wholesale distribution of distilled spirits, including neutral spirits and ethyl alcohol used in blended wines and distilled liquors.

Challenge

Elite wines wanted to integrate their warehousing process for their quick shipment and receiving of inventory updating. They wanted to implement the customized QC process as part of warehousing operation to track the quantity of the items before shipping and should have a process of handling returns.

Solution

NetScore WMS Mobile Application provided a customized and comprehensive solution to integrate their operations with NetSuite. The warehouse operations are more transparent now as they can track the progress of orders being prepared for shipment and the receiving process was made more simple. Returns were also tracked according to the QC resulting in inventory location vs damaged location.

Benefits

Improved Efficiency by Scanning

The WMS Mobile app has helped to integrate NetSuite to our warehouse operations. The ability to scan invoices and items has improved efficiency and reduced errors. The application helped them increase sales and turn inventory faster.

Seamless Operations

NetScore WMS app provided an instant integration with NetSuite. Making it a more seamless and interactive transition, as any changes made using the WMS application are automatically updated in NetSuite server.

Key Features implemented for Elite Wines

- Item Lookup
- Item Receipts
- Invoice Shipment (Pick/Pack/Ship)
- Sales Order Direct Shipment
- Inventory Adjustments
- Item Returns
- QC Process (Customization)
- Item Delivery Tracking (Customization)

Product:
NetScore WMS Mobile for NetSuite

"The WMS Mobile app has helped to integrate NetSuite to our warehouse operations. The ability to scan invoices and items has improved efficiency and reduced errors. Our warehouse operations are also more transparent now as we can track the progress of orders being prepared for shipment. In addition, any changes made using the app are automatically updated in NetSuite, which is a great feature. Moreover, the NetScore team was able to customize the app to our specific needs without a problem."
