NetScore Delivery Routing

For NetSuite
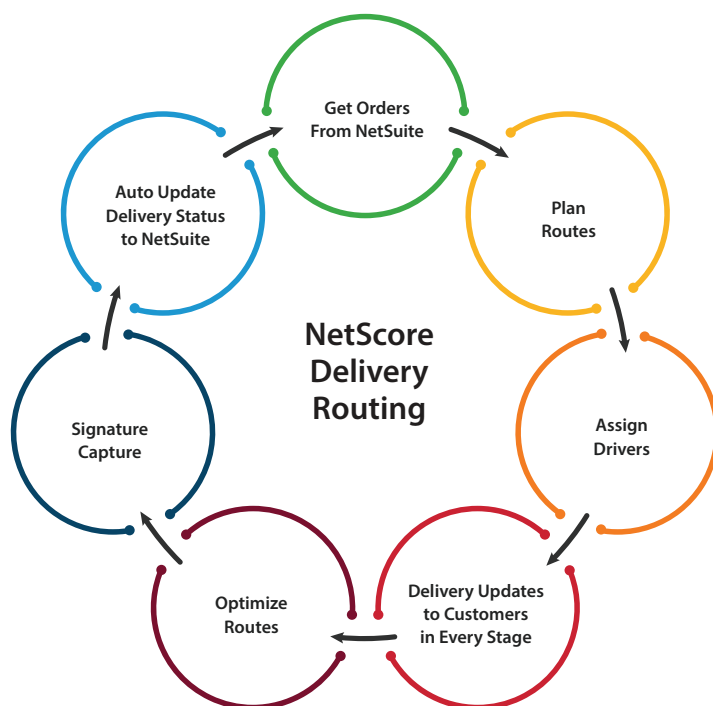

Built for
ORACLE NETSUITE
Hybrid SuiteApp

NetScore Delivery Routing for NetSuite provides a delivery solution for NetSuite customers who run their own delivery trucks. The solution organizes orders into delivery routes that are then assigned to your drivers via a mobile application. Drivers use a mobile application on any Android or IOS device to be guided through their route, receive turn by turn instructions, capture signatures and even take pictures of delivered items. All delivery confirmation, signatures and photos are updated automatically in NetSuite.

NetScore Delivery Routing

- Get Orders From NetSuite
- Plan Routes
- Assign Drivers
- Delivery Updates to Customers in Every Stage
- Optimize Routes
- Signature Capture
- Auto Update Delivery Status to NetSuite

RM ROCK MATERIALS

Benefits

- **Route Optimization**

  Automatically optimizes the route to prioritize deliveries faster.

- **Delivery Status Update**

  Automatically updates the delivery status in order and invoice records.

- **Multi Utility Application**

  Delivery routing can be used during Trade-shows for sales.

- **Delivery Truck Performance**

  Tracks the truck performance details for scheduled truck maintenance.

- **Track Your Team**

  View progress of your delivery team via a real-time dashboard.

- **Electronic Proof of Delivery**

  Captures the details of the delivery through e-signature and invoice photographs.

- **Sales Rep Planner**

  Allows sales rep to create orders for customer at customer's location.
