

NetScore ShipStation Connector for NetSuite

NetScore ShipStation connector for NetSuite delivers a customized order fulfilment connector. This integration helps you automate order synchronization, track number upload and connect your online store with ShipStation warehouses around the globe.

NetScore ShipStation connector is completely customizable for all types of NetSuite stores. Installation includes integration and configuration to match your NetSuite environment.

Benefits

Real-time Order Import and Export

Real-time order import and export, will help the user to ship products faster and in an efficient manner

Real-time Dashboards

Real-time dashboards helps monitor sales and improve inventory decisions

Synchronizes Inventory and Price Levels

Real-time inventory and pricing level synchronization between NetSuite and ShipStation. This prevents the creation of overselling orders in the ShipStation.

Error Handling Mechanism

Error handling mechanism improves ability to handle errors incurred during data transfers between NetSuite and ShipStation and vice-versa.

Simplifies the Order Process with Complete Automation

- Complete automation of sales process
- Easy handling of orders and returns
- Built-in error handling mechanism
