

# NetScore BigCommerce Connector

For NetSuite

NetScore BigCommerce Connector for NetSuite is a fully automated, real-time integration between NetSuite and the BigCommerce web store. The connector provides accurate product creation, real-time inventory updates, timely order fulfilment in NetSuite and status updates to BigCommerce.

The connector provides a fast and straightforward way to integrate orders, products, customers and other transactional details between NetSuite and BigCommerce.

*"The team at NetScore has always made our company needs a top priority when tasked with complicated customization for our NetSuite Connector and our BigCommerce storefront. They have gone above and beyond in comparison to past solutions we have utilized and created a user-friendly interface for us to work with. I highly recommend NetScore for their Connector Solutions and look forward to working with them on future customizations for our ERP system and eCom storefronts."*
