

NetScore Subscription Billing

For NetSuite

NetScore Subscription Billing for NetSuite is a highly effective tool that further automates NetSuite's billing and payment process. By leveraging its advanced features, customers are accurately charged based on their chosen subscription billing frequency. This application also streamlines the management of upgrades and downgrades, allowing customers to select a specific day of the month for payment according to their preferences. NetScore Subscription Billing for NetSuite also will enable customers to renew or cancel their subscriptions, ensuring a hassle-free and seamless experience. This powerful tool helps businesses optimize their subscription billing process and improve customer satisfaction by delivering accurate and consistent charges.

“NetScore has been super easy to work with and the team is super helpful whenever there is an issue! This add-on has made our subscription billing a lot smoother and more efficient. We have saved many hours by having automatic billing and no longer needing to manually input data. Highly Recommended!”

Benefits

Automated Communications: Automate customer emails and notifications for timely invoice delivery, payment reminders, and subscription updates, saving time and maintaining a professional brand image.

Billing & Payment Automation: Streamline billing by generating invoices and collecting payments automatically, reducing errors and accelerating cash flow while offering a seamless customer experience.

User-Friendly Interface: Easily manage customer data, billing cycles, and revenue projections with an intuitive platform designed for quick navigation and clear instructions.

Revenue Forecasting: Leverage powerful forecasting tools to analyze historical data and subscription trends, guiding informed business decisions, goal-setting, and growth planning.

Customizable Reporting: Generate detailed, customized reports on customer behavior, revenue trends, churn rates, and more to drive data-driven decisions and optimize your subscription model.

Flexible Billing: Accommodate diverse billing scenarios, manage complex schedules, offer custom pricing tiers, and apply promotional discounts with a versatile solution for businesses of all sizes.

Features

Addable Charges: Supports addable charges for extra services, add-on products, or overhead expenses in the next billing cycle.

Boxed Products: Supports customers selecting various products to be included in a boxed package and delivered on a subscription plan.

Flexible Billing Options: Provides customers the flexibility to pause and resume their subscription as needed.

Customer-Friendly Renewal Process: Provides a customer-friendly renewal process with limited and forever options.

Deferred Subscriptions: Allows customers to postpone their subscription to a later delivery date.

Automated Dunning Management: Automatically sends reminder alerts to customers regarding past-due accounts.

Integrated SCA: Makes pre-integrated SCA available in the NetSuite back office.

Enhanced Customer Experience: Offers improved customer convenience and operational efficiency to create, change, or renew subscriptions.

Easy Reporting: Tracks and manages every change throughout the subscription lifecycle with dashboard reporting.
