

NetScore Subscription Billing

For NetSuite

Is manual billing slowing down your
subscription business?

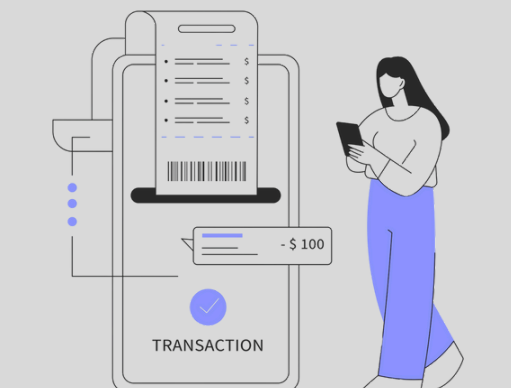

NetSuite Certified

NetScore Subscription Management provides a powerful solution for companies that need to manage recurring sales order transactions. NetScore Subscription Management is built on the NetSuite platform, providing a seamless extension to the customer's ERP solution. The billing engine automatically creates incremental invoices to simplify the billing process. Entered as a single transaction, the subscription agreement defines the subscription item, frequency of the shipments / invoices, duration of the subscription, discounts, and payment methods.

Subscription Billing

- User Defined Subscription Periods (Monthly, Quarterly, Annual)
- Auto-Billing Based on Subscription Terms
- Payment Retry
- Supports Box Products
- Subscription Cancellation, Pause & Resume
- Upgrade & Downgrade Subscription
- Add/Edit a Subscription
- Auto Renewals

Our company needed software to handle our recurring billing associated with subscription plans and I was lucky enough to come across NetScore. The software off the shelf met 90% of our needs, but they did a great job at customizing it to be exactly what we needed. Their engineers and support staff have been great to work with and I could not recommend them more!"
